

October 11, 2025: On the End of Humanity

I am writing today to express that we truly have reached an end to the normal way of living life within the world.

Since I have become surrounded by an omnipresent force of oppressive spy-gadgetry that is enabling a team of people to watch over every aspect of my life while they hide inside of their own protective bubble and manipulate my world,

I have become acutely aware that machines have caused the end of our humanity.

Our humane-ness has become captured by an artificial device that is allowing evil people the luxury of avoiding the consequences of their immoral actions while imposing consequences onto others to capture the other person's morals, voice, life, and existence.

I am expressing publicly to the world that humanity is being captured by the United States government of criminals, liars, frauds, and imposters.

I am confidently aware that my ancestors came to America seeking a way of life that would free them from the overbearing influences of a society of fallen and immoral people.

Now, I am being forced to recognize that the government that placed itself over us in the new land has in fact become the exact same type of evil force that pressured us from our home in the old world.

I am confidently expressing to anyone that ever has the luck, direction, or God-given providence to come across these messages that **America is the reason for the end of humanity.**

The United States military has become captured by an evil spirit and I am not confident that humanity has the spirit necessary to re-conquer it.

Since I am here writing, studying, writing, and studying, I am witnessing that **this evil spirit within the United States military is absolutely attempting to capture my voice, my soul, and my life inside of a bubble that will never be seen by the world.**

The United States military has become my true enemy.

The United States military is the Anti-Christ force of the Bible and it is the multi-headed beast that must be stopped by humanity if humane-ness is ever to exist in the world again.

Donald Trump, Elon Musk, and United States military soldiers:
YOU ARE MY ENEMY. YOU ARE THE TRUE ENEMY OF GOD.
